Subject: RE: PFAS Regional Event - Communicating Around PFAS Panel- Lessons Learned

For the state panel not the other ones – correct? I like the idea of Mark and Amy. Do we have one/state?

There are three good choices for state panel members.

Request participation on call this afternoon

VT – overview of experience in Bennington and beyond. (We have also already had contact with VT about possible participation).

MA – Mark Smith, Office of Research & Standards, gave a good presentation on a NEWMOA call last week explaining how each state/EPA has come up with their numbers. Mark is on vacation until Monday, but I left him a VM asking if he would be interested.

RI – Amy Parmenter from RI DOH is one of the state’s primary PFAS contacts. I’ve seen her give a good overview of the state’s response with the community in Burrville. Amy recently attended EPA’s ROCS-Net conference as the Region 1 state partner (topic was PFAS). Do you want me to reach out to her, or does one of you want to reach out to DOH and DEM?

Thanks.
